1. Limited Product and Power Warranties

Effective Date: **September 1, 2020.**

PV Module(s). This Limited Warranty is effective for SunPower photovoltaic modules from Maxeon Solar Technologies, Ltd. (“Maxeon”) for commercial installations with the model numbers listed in the Warranty Table sold after the Effective Date (the “PV Modules”).

Warranty Start Date. The Warranty Start Date is the earlier of: (i) the date of array interconnection, and (ii) 6 months following the delivery. If the delivery date cannot be verified, then the manufacturing date will be used in its place.

Product Warranty. Subject at all times to the terms and conditions in this Limited Warranty, Maxeon warrants the PV Modules will be free from defects in materials and workmanship that materially impact the functioning of the PV Modules under normal application, installation, use and service conditions during the Product Warranty Term, as set forth in the table below.

Power Warranty. Subject at all times to the terms and conditions in this Limited Warranty, Maxeon warrants the PV Modules will have a Measured Peak Power¹ of at least the Guaranteed Peak Power during the Power Warranty Term, as set forth in the table below.

| PV Modules | Product Warranty Term | Power Warranty Term | Guaranteed Peak Power |
|----------------------------------|---------------------------------------|---------------------------------------|---|
| SPR-P3-xxx-COM SPR-P3-xxx-UPP | 25 years from the Warranty Start Date | 25 years from the Warranty Start Date | 97.5% of the Minimum Peak Power ² for the 1 st year of the Power Warranty Term, reduced by 0.5% at the beginning of each subsequent year of the Power Warranty Term, down to 85.5% for the final, 25 th year |

2. Claims Process and Coverage

If any PV Module fails to conform to this Limited Warranty, except in the event such failure or any power loss results from or arises out of (in whole or in part) any of the excluded events set forth in Section 4 below, as determined by Maxeon in its sole reasonable discretion, then for the applicable Warranty Term, Maxeon will elect (in its sole and absolute discretion) to either repair, replace, or refund the defective PV Modules as set forth herein.

If you have a claim covered by this Limited Warranty, then immediately contact Maxeon at customers@maxeon.com. Upon receipt of a claim, Maxeon may require additional information regarding the claim, including: applicable warranty registration information; itemized proof of purchase, delivery or installation; serial and model numbers; and evidence regarding the basis of claim. All Maxeon obligations hereunder are expressly contingent upon the timely and full provision of such additional information. Returned PV Modules will not be accepted unless prior written authorization has been provided by Maxeon.

For repairs and replacements, Maxeon will pay reasonable, customary transportation costs for the return of covered PV Modules from, and the shipment of repaired or replacement PV Modules to, the place where the covered PV Modules were originally delivered by Maxeon. Replacement PV Modules may be refurbished or remanufactured PV Modules, will be electrically and mechanically compatible with the covered PV Modules, and will have a substantially equal or greater power rating.

For PV Modules that were originally installed in Australia by Maxeon Solar, any affiliate of Maxeon Solar, or any Maxeon Solar Authorised Installer, Maxeon Solar will pay for reasonable, necessary, and actual removal and reinstallation costs of the repaired or replaced PV Module up to AUD\$375 for up to 5 PV Modules and AUD\$75 per PV Module thereafter for a single claim; provided, however, Maxeon Solar has sole discretion to select the party performing such removal and reinstallation.

If Maxeon issues a refund under a valid Product or Power Warranty claim, then Maxeon will refund the original purchase price for the first five years of the applicable Warranty Term, and then linearly depreciate the refund amount by 4.75% per year (the “Claim Value”), provided that for a valid Power Warranty claim, Maxeon will refund the Claim Value multiplied by the percentage difference between the Guaranteed Peak Power percentage and the Measured Peak Power percentage (both as a percentage of the Minimum Peak Power).

3. General Conditions for Warranty Claims

- a) All coverage, rights, and performances under this Limited Warranty is expressly conditioned upon full payment (including full payment of any charges for interest or late payment) due to Maxeon.
- b) All warranty claims hereunder must be filed within the applicable Warranty Term. Any warranty claim filed outside the applicable Warranty Term, including any claim for a latent or undiscovered defect, is invalid and will be rejected by Maxeon.

¹ “Measured Peak Power” is a measurement of the watt peak of a PV Module at Standard Test Conditions (1000W/m² irradiance, AM1.5, 25C. SOMS current, LACCS FF and Voltage from NREL calibration), as described in IEC61215, measured per IEC60904, and accounting for 3% measurement tolerance. Measured Peak Power measurements require a sweep rate of no less than 200ms to ensure an accurate power measurement. Maxeon can provide a detailed testing procedure or a list of recognized testing agencies upon request.

² “Minimum Peak Power” is the rated power shown on the PV Module label.

- c) The Product and Power Warranty Terms for any repaired or replaced PV Module shall not extend beyond the original terms.
- d) When PV Modules are used on a mobile platform of any type, such as a vehicle (not including Trackers), the Product and Power Warranty Terms shall each be limited to 12 years.
