

## Warranty for Performance PV Modules / SPR-P and COM

*This Limited Warranty is effective for SunPower photovoltaic modules for commercial installation with “SPR-P” and “COM” in the product model number and sold after December 1, 2018.*

### 1. Limited Warranty

Subject at all times to the terms and conditions as set out in this Limited Warranty, SunPower Corporation (“SunPower”) warrants that for 25 years beginning on the Warranty Start Date<sup>1</sup> (the “Warranty Period”), its photovoltaic modules specified above (“PV Module(s)”), shall be free from defects in materials and workmanship under normal application, installation, use and service conditions, and the power of the PV Modules will be at least 97% of the Minimum Peak Power<sup>2</sup> rating for the first year, and will decline by no more than 0.6% per year for the following 24 years, so the power output at the end of the final year of the 25th year warranty period will be at least 82.6% of the Minimum Peak Power rating (the “Guaranteed Peak Power” rating).

### 2. Claims Process and Coverage

If any PV Module fails to conform to this Limited Warranty and provided that any loss in power is determined by SunPower in its sole discretion (without prejudice of customer’s rights under applicable English law as set out in paragraph 7 below) not to have resulted from one of the excluded events set forth in Section 4 below, then for the Warranty Period, SunPower will repair, replace or refund the defective PV Modules as set forth herein.

In the event you have a claim covered by this Limited Warranty, immediately notify (a) an Authorized SunPower Installer; or (b) contact SunPower Corporation directly at the contacts shown below. Upon receipt of a claim, SunPower may require additional information regarding the claim, which may include, without limitation, applicable warranty registration information, proof of purchase and/or delivery, installation, serial and model numbers, and evidence regarding the basis of claim. All SunPower warranty obligations hereunder are expressly contingent upon the timely and full provision of such additional information. The return of any PV Modules will not be accepted unless prior written authorization has been given by SunPower.

For any valid claim, SunPower will, in its sole discretion, either: (a) repair; (b) replace; or (c) refund the original purchase price subject to the conditions set out herein. In the event SunPower elects to repair or replace the affected PV Modules, SunPower will pay for reasonable and customary transportation costs for: (i) the return of the PV Modules from the place where the affected PV Modules were delivered by SunPower, and; (ii) reasonable and customary transportation costs for reshipment of any repaired or replaced PV Modules to the place where the affected PV Modules were delivered by SunPower; (iii) for a PV Module that was originally installed in Belgium, France, Germany, Italy, The Netherlands, or the United Kingdom, SunPower will pay for reasonable, necessary, and actual removal and reinstallation costs of the repaired or replaced PV Module up to €250 for up to 5 PV Module thereafter for a single claim; provided, however, SunPower has sole discretion to select the party performing such removal and reinstallation.

In the event SunPower elects to replace any PV Module, SunPower will replace such PV Module with an electrically and mechanically compatible PV Module (including a refurbished or remanufactured PV Module) with a substantially equal or greater power rating. For any refund, SunPower may either refund the original purchase price, or refund the amount equal to the original purchase price multiplied by the difference between the Guaranteed Peak Power percentage and the actual power output percentage; provided, however, the original purchase price shall be prorated at 4.75% per year starting five years after the Warranty Start Date.

### 3. General Conditions for Warranty Claims

- a) All warranty claims must be filed within the Warranty Period. Any claim filed outside the Warranty Period, including any claim for a latent or undiscovered defect, is invalid.
- b) The Limited Warranty for any repaired or replaced PV Module shall not extend beyond the Warranty Period.
- c) When PV Modules are used on a mobile platform of any type, such as a vehicle, the Warranty Period shall be limited to 12 years.
- d) PV Modules may be used with floating mounting system with written approval from SunPower

### 4. Exclusions and Limitations

<sup>1</sup> “Warranty Start Date” is the earlier of (i) date of array interconnection and (ii) 6 months following the date of SunPower delivery. If the delivery date cannot be verified, manufacturing date will be used in its place.

<sup>2</sup> “Minimum Peak Power” is defined as the minimum rated power, as shown on the label. Peak Power is defined as the watt peak at Standard Test Conditions (1000W/m<sup>2</sup> irradiance, AM1.5, 25C. SOMS current, LACCS FF and Voltage from NREL calibration), as described in IEC61215, measured per IEC60904, and accounting for 3% measurement tolerance. SunPower modules shall, in any event, require a sweep rate of no less than 200ms to ensure an accurate power measurement. SunPower can provide a detailed testing procedure or a list of recognized testing agencies upon request.
